### QUINCY

#### COMPILED BY H. A. MANNING COMPANY WITH THE ASSISTANCE OF QUINCY CHAMBER OF COMMERCE

The publishers of this Directory have attempted in the following pages to give the outstanding features of the city of Quincy. The local resident or businessman as well as the potential visitor will have at hand a ready reference about the city and its people. Statistics are as far as possible the most recent available. The purpose here is to portray as much of Quincy's charm and greatness as is consistent with fact.

The Directory is in effect an encyclopedia of knowledge about the city. It shows localities, street changes, growth of sections and general city changes. The names of the residents give evidence of racial characteristics which is helpful to anyone making a detailed study of Quincy.

The Quincy Directory becomes a part of the Free Library Exchange System of North America, and through this medium disseminates information about the city throughout the country.

LOCATION—Quincy lies on Quincy Bay, which is off the larger Massachusetts Bay, forming the excellent harbor that has had so much to do with the shipping importance of New England. The city is strategically situated for residence and business, only eight miles from the heart of Boston, with which it is closely connected by business and social ties. Distances from Quincy are, New Bedford 47 miles, Providence 43, Worcester 43, Lowell 33, Concord, N. H., 96, Portland 118, Bangor 268, Springfield 105, Albany 186, Schenectady 205, Hartford 115, New York 223, Greenfield 105, Elmira 391, Atlantic City 359, Buffalo 506, Philadelphia 318, Rochester 409, Burlington 223, White Mts. 187, Washington 454.

HISTORICAL—Quincy was settled as trading post in 1625 by Capt. Wollaston. In 1640 it became a part of the Colony of Massachusetts. It was originally a part of the township of Braintree from which it was set off in 1792 and made a town, to which the name of Quincy was given. In 1888 it was incorporated as a city with Charles H. Porter as the first Mayor. Quincy is noted as the birthplace on Franklin Street. Birthplace of John Quincy Adams, sixth president, was built in 1681, and restored in 1897 by Adams Chapter of D. A. R., and is located on Franklin Street. The birthplace of John Hancock is on Adams Street where a bronze tablet marks the

is on Adams Street where a bronze tablet marks the spot where the house stoo d in which this patriot was born. Abigail Adams Ca rn, Penn's Hill off Franklin Street, marks the spot from which Abigail Adams Street, marks the spot from which Abigail Adams and her son John Quincy Adams watched the smoke of the Battle of Bunker Hill. Burial places of John Adams and John Quincy Adams and their respective wives are under the Stone Temple of the First Parish Church at Quincy Centre. The church contains the Adams family pew, In the Auditorium are mural monuments to the memory of the Presidents. President Adams mansion is located on Adams street corner of Newport avenue. It is operated by the U. S. Government as a national shripe. Dorothy O House. government as a national shrine. Dorothy Q House,

on Hancock Street corner of Butler Road, is the old Quincy homestead where Dorothy Quincy was born; the parlor has old paper put on for the wedding of Dorothy Quincy and John Hancock; this property is owned by the Massachusetts Society of Colonial Dames. The Myles Standish Calirn is in the Squantum district and marks the site of the landing of Myles Standish, Sept. 30, 1621. In the old Hancock Gemetery located on Hancock St. opp First Parish Church lie burled many of the first settlers of Quincy, Including Rev. John Hancock, father of the patriot. In including Rev. John Hancock, father of the patriot. In West Quincy is the site of the first railroad in the United States, built in 1826 to convey stone for Bunker Hill Monument from quarries to tide water on Neponset River. The foregoing historic points are all open to the public at specific times.

TOPOGRAPHY—Quincy has a beautiful and interesting topography. The altitude varies from sea level to 480 feet in sloping terrain. The average altitude in the business and residential sections is 25 feet. The Blue Hills Reservation is partly in Quincy and provides a delightful variation from the low land of the sea shore. It is probable that the topography of Quincy surpasses in beauty and variety that of any other city in Massachusetts, combining sea, headlands, shore and hills. The residential districts extend into the highlands from which views of the lower parts of the city and the bay may be had. Much of Quincy's charm for residences is its highland home sections. From the Blue Hills it is possible to see much of Poston and the Metropolitan area. Quincy has the attractiveness of the "South Shore" which leads to incomparable Cape Cod. Area 16.77 square miles.

POPULATION—Quincy is reputed to be the fastest growing city in Massachusetts. It has grown from 47,876 in 1920 to 71,983 in 1930. The 1940 Federal Census showed a population of 75,810, 1948 estimate by the Chamber of Commerce is 88,000. Predominating nationalities are Canadian, Scottish, Italian and Finnish. They are away from home and many times under wrong influence. Do not hesitate to write them many times a year strengthening their hand and giving them the advantage of your good judgment and common sense. ### Every City Must Have a Directory

.... not only to give the names, business and addresses of its citizens, but also to give that character of the progressiveness that would record the information of its people and institutions for present usefulness and historical purposes

The biographical history of the masses is contained in the City Directory and no other place. That stamps its importance to the individual, business and organization. To make your history and benefit from its purpose to locate and identify you, watch your Directory registration to see that it accurately records your positions in life from year to year.

The merchants and organizations that sponsor and use this service will be glad to have you consult their Directories so that you may see that your information is correctly and completely listed. We will appreciate your suggestions.

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Quincians of vision that this full and adequate supply of churches is one of the greatest of the many resources of the city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

The Church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against the degrading influences that surround us.

Therefore, let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness, let us remember their value as

### IT'S

# 25th YEAR

- In 1924 the Lincoln stores started with their first store, located in Quincy, it was founded on the theory that department store merchandise could be sold on a cash and carry chain store basis for less money, today a chain of Lincoln stores throughout the east proves the success of that idea.
  - It's little wonder then, that when south shore housewives think of curtains, hosiery, underwear, domestics, spreads, housewares, etc. they think of Lincoln's first, because, as always, it costs you less at Lincoln's.

#### LABOR IS THE BEST

Quincy has one of the best labor markets in the Commonwealth of Massachusetts. There is an adequate source of skilled labor of all types. Conditions between labor and management have always been extremely good.

#### TRANSPORTATION FACILITIES

Quincy is located on three main highways, is served by trains each way between Boston, eight miles distant, and various South Shore points and has unsurpassed bus service. Harbor facilities are excellent, and are being improved each year. The harbor is within three minutes of a large and prosperous business district. Efficient truck and freight service is available.

#### PRODUCTS PRODUCED

Quincy is, of course, known internationally as a ship-building city. But there are many more internationally known products manufactured in Quincy such as granite, machinery parts, packaging machinery, gears, rubber goods, amplifying and telephone equipment, marine engines, portable buildings, paints, tools, chemicals, boilers, floor machines, conveyors, underwear, scales, scientific instruments, soap, ventilators, rivets and studs, packing and labeling machinery, etc.

#### STRATEGIC LOCATION

Because of its strategic location Quincy is looked upon by manufacturers as an ideal place in which to locate. Within a radius of 150 miles there is a retail market of 7,000,000 persons. Shipping facilities are exceptional. Housing conditions are of the best. Labor is of the highest type. Quincy offers much to manufacturers.

For Additional Details on Quincy's Industrial Advantages ask the

# Industrial Quincy

Quincy has grown rapidly as an industrial city but does not suffer from being over-industrialized. It is a balanced city with healthy industries, a good retail center, and attractive residential districts. Employees of Quincy industries find happy, healthy living in the city. National firms are attracted to the city because of its unusual combination of strategic location, low tax rate, excellent municipal facilities and cooperative labor.

#### Manufacturing Facilities in Quincy

Manufacturing plants in Quincy are of the most modern type. Much of the construction is new. The stability and progress of Quincy industry is demonstrated by the many expansion programs recently completed or under way. Large industries find that the smaller service industries which abound in the area are convenient sources of supply for equipment and service.

# WHY ADVERTISE IN MANNING'S DIRECTORIES?

### You Men-

Who spend Large Amounts of money on creative advertising—Who are prone to think of creative advertising only

### A Word with you—

When you invest a dollar in merchandise, equipment and personnel, or anything else connected with your business, you protect that dollar to the utmost. What are you doing to protect your investment in creative advertising? The newspaper that you buy daily may have in it an advertisement that costs you many dollars. This paper has the date printed at top of each page—You saw the date. But when you reached your office and wanted the day of the month you referred to the calendar, not your memory. Your employees did the same, the whole business likewise

### The Public—

May see your creative advertisement but when they want your products they will turn to Manning's Directory that lists you at least three ways and can double that if you say so. Turn to the Classified following Pink Section and get the full story by further reference to what you can say in a well displayed advertisement

### Protect Your Investment—

In creative advertising by liberal advertising in the Buyers Guide for a small percentage cost of your creative advertising

Insure your Advertising Appropriation with—

#### DIRECTORY CITY

Because It Is Used The Most To Find Just Such Information You Most Wish To Have The Public Know

FIRST—what line of goods you handle. SECOND where you are located. Pick up a City Directory anywhere, and almost invariably you can tell who the progressive, up-to-date merchants and professional men are. There are many brands of clothing, shoes, dry goods, groceries, etc. and some prefer one kind, some another. What better place to state your special brands than n the City Directory?

## **Directory Floor Stand**

For Retail Establishments where there are congested conditions in Drug and other stores

"MODERNISTIC"

Directory Fastened to Stand by Two Chains Attached to Rings Through Top of Cover

Extra Placards of Bristol Board Furnished for Frequent Changing

The purpose of this stand is to save the merchant's time in handing out the Directory and watching it to see that it is not stolen, and to provide an exposed position where the public can use it without asking any questions.

The stand is made with a very heavy metal base so that it cannot be easily upset. The metal tube screws into the base, and into a socket made to fit underneath the wooden shelf. The metal parts of the stand are finished with aluminum bronze. The wooden part of the stand is made especially for this purpose, and is finished with mahogany stain, and is attractive.
